Speakers

Topic: BIM from Contractual Perspective in Tender and Design Stage

Roger BAYLISS
Projects Director
MTR Corporation

Design is the first stage of any project and the one when majority of information is created. For a client committed to BIM process the success of the project depends greatly on the consultants' capability to produce this information according to the client's information management requirements and industry best practices.

Marcin KLOCEK
BIM Manager
MTR Corporation

MTR has put a lot of effort into preparation of BIM standards, tender workflow and the relevant contractual documents (including the Scope of Service) to ensure that the tenderers understand well what we need and are capable of delivering it using Common Data Environment (CDE) and BIM workflows.

Topic: Reaping the Benefits from BIM in Construction HKHA's Perspective

Connie YEUNG
Deputy Director
Housing Authority

As the largest developer for residential developments in Hong Kong, the Hong Kong Housing Authority (HKHA) has been making its best effort to apply BIM throughout the construction lifecycle to enhance work efficiency, including tender assessment, construction planning, and mobile applications in site supervision.

Vera CHOI
Assistant Director
Housing Authority

Connie and Vera will share with you the latest development of the HKHA in the use of BIM, and the benefits of BIM in the construction of a project from a client's perspective.
