## Speakers' Biography

**Sr Ken MA & Sr Bill TANG** "Both Sr Ken MA (Senior Property Services Manager) and Sr Bill TANG (Property Services Manager) from the Architectural Services Department have been working to promote wider use of BIM technology in facilities upkeep of government buildings/ facilities in order to leverage the information contained in BIM models to facilitate asset management over the whole asset lifecycle."

**Ir Dr. King WONG** gained over 25 years profound and professional experience in the field of engineering, utility survey, safety management, data analysis, project management, building information modelling (BIM), urban planning and education & training. He founded HKIUS and IIUS in 2002 and 2013 respectively as milestones of utility survey. Furthermore, IIUS has expanded its vast professional membership network to over 30 cities in different countries. Ir Dr. King WONG has successfully exported professional practices of utility survey and become an international role model to other countries, attracting many practitioners to fly over to Hong Kong for training. Ir Dr. King WONG has also been invited to be a member of the People's Republic of China editorial team.

Note:

1. Participation at this training class is free of charge, but registration is required. The registration will close at 3pm on the day.
2. Upon the completion of this class, a 1.5 hours CPD will be offered at the cost of HK\$ 50 (as a handling charge).
3. The class will be conducted in English.
