Speaker:

Mr. Franco Coin
Steering Committee
member
BuildingSMART

Member of the BuildingSMART Int.l Regulatory Domain Steering Committee

A chemist converted to digital, after twenty years as a digital entrepreneur, now passionate about making institutions and businesses meet and making the regulatory process work.

On 20 December 2023 (Wednesday)

Live 18:00 HKT

via Zoom Online

After a decade in which it was almost a niche topic, the last two years have seen an amazing growth and spread of momentum for the use of OpenBIM in building regulation. Both the post-pandemic increase in digital adoption in institutions and the demands of building sustainability management are driving new or improved Digital Building Permit (DBP) projects in many jurisdictions at local and national levels.

The BuildingSMART regulatory domain has a privileged view of this process as it is involved in improving the OpenBIM standard in relation to DBP requirements, and this presentation will share the state of the art that we have been able to collect and continue to discuss and evaluate it with the BuildingSMART Hong Kong Chapter.

We will also share some hints of the future we are developing in the regulatory domain, not only related to the regulatory aspects, as we are confident that "*the best way to spread the OpenBIM standard is to make it mandatory (quoting T.Henttinen)*".

Note:

- If you haven't registered yet, please use this [link](#) or QR Code to register your interest class(es); confirmation will be sent to you before each class.
- Participation in this training class is free of charge, but registration is required. The registration will close at 3 pm on the day.
- Upon completing this class, a 1-hour CPD will be offered at the cost of HK\$ 50 (as a handling charge).
- The class will be conducted in English.
