#### Welcome Address

Construction and infrastructure projects can require years of planning and execution and involve thousands of people, tasks and millions, if not billions, of dollars of investment. While construction companies are accelerating adoption of information technologies to help manage this complexity, many of these efforts have proven to be costly, complicated and more disruptive than helpful. Therefore, a robust solution that will improve profit margins and help complete projects safely, on time and on budget, is critical to the construction industry.

Hexagon SMART Build leverages decades of project planning, execution and control leadership successfully applied to some of the world's largest and most challenging industrial projects. A holistic example (Hexagon Park in Tsing Dao) by fully integrating the BIM model into SMART Build system will be demonstrated throughout the presentation.

藉由此次機會，將和香港同行、各位專家分享有關大陸地區建築行業現狀、挑戰以及管理痛點。

同時，也將分享大陸地區各級政府引導行業數字化轉型的政策。

隨後簡要介紹 Hexagon 集團及智慧建設方案，並將重點和香港同行分享青島市智慧建設項目成功案例。
